Greetings all,

I wish to use this opportunity to thank everyone for participating in the National Workshop on Astronomy for Teachers, held at the Federal University of Technology, Akure from 22 to 23 June 2016.

As a follow-up on this Workshop, American Astrophysicist LeRoy Larry has made available on iCloud, all the presentations at the Workshop. These presentations can be downloaded for free at:

[where presentation.pptx](#)

[view presentation.pptx](#)

[how presentation.pptx](#)

[differ presentation.pptx](#)

[what presentation.pptx](#)

[outer space.mp4](#)

[where film.mp4](#)

[questions answers.mp4](#)

[SPACE TECHNOLOGY FOR HUMAN SAFETY AND SECURITY.pptx](#)

[Asteroid Search Campaign.pptx](#)

[Quiz.pdf](#)

[Natural Physics.mp4](#)

Mr. Larry is also making arrangements, to have the DVDs of the instructional materials from the Workshop distributed to each participant at no cost.

Some of the schools represented at the Workshop have been making enquiries about having Astronomy, either added to the academic curriculum of their school, or as an enrichment program for the students. Mr. Larry would be available to provide professional guidance on this, and other issues related to the study of Astronomy in schools, when he comes to Nigeria again, before the end of this year. For any additional information, please contact him directly at [llarry711@hotmail.com](mailto:llarry711@hotmail.com)

To facilitate further communication with each school represented at the Workshop, the information collected during the registration period is being used to develop a digital database. Miss Ranti Alabi, who is presently a participant of the Post Graduate Diploma (PGD) Program of ARCSSTE-E, is developing this database as a Remote Sensing and GIS Project. She will contact, by telephone, anyone with incomplete registration data, for updates. Please cooperate with her, if you want your school to receive a copy of the final Report on the Workshop that will be distributed to all participating schools before the end of 2016!

Finally, I would like to use this medium to inform you all that I am no longer the Head of the Space Education Outreach Program of ARCSSTE-E. It was a pleasure working with you on that platform!

Thank you so much!

Best regards,  
Dr. Wumi Alabi  
Assistant Director (Scientific/Technical)  
African Regional Centre for Space Science and Technology Education in English  
(ARCSSTE-E)  
Obafemi Awolowo University Campus  
Ile-Ife, NIGERIA

I, Mr Oloyede Muhideen A., from Islamic Redeemer Models' College, Modakeke, Osun State, Nigeria (latitude: 7.4856 and longitude: 4.5475) science teacher who represented the above named school on astronomy workshop held at Federal University of Technology, Akure ON 22nd & 23rd June, 2016. I hereby informed you that my school has agreed to include astronomy as part of our school curriculum due to the report of the program been given to them. in light of this, I have volunteered to teach the students. the major problem now is how to get the guideline on how to carry out the students along like curriculum, and other materials.

Also, I want to inform you that Dr Wumi Alabi has sent some presentations to my mail box. I am looking up to your contribution too.

thanks.

OLOYEDE MUHIDEEN ABIODUN.

Hello. I'm writing on behalf of Love and Joy Secondary School, Ilesa, Osun State, Nigeria. We attended the workshop on astronomy held at the Federal University of Technology Akure in June, 2016. We already have a space club in our school but we want to incorporate astronomy into the club programs. Please we need your assistance. Thanks.

[llarry711@hotmail.com](mailto:llarry711@hotmail.com)

Dear Mr. LeRoy,

Thank you so much for visiting Nigeria and sharing with us. I am Margaret Fadehan, the head of schools for Fadehan Schools in Ile Ife. We were represented in the workshop held in Akure in June by Lamide Afolabi, a member of our Supervisory Academic Unit. We would want to have the study of Astronomy as part of the enrichment program for our students and would want to have your guidance on same.

I am presently downloading the materials you put up on icloud and would appreciate it if our school can be included in the follow up activities being planned. Looking forward to hearing from you. Thank you & God bless.

Margaret

I, write on behalf of my school, Arise and Shine Builders Nur/Pry school Oba - ile, Akure North local Government to express my appreciation to you for organizing the training program.

The school is prepared to teach our pupils from Primary four (04) to Primary six (06) astronomy as a subject. This will ensure maximum benefits to all our pupils.

Your support in this regard will be highly appreciated

Thank you.

Good evening.

My school is a private nursery / primary school. I want to find out when we are expected to commence teaching of astrology to our pupils? We need some teaching materials. How and when will you help us out? Are we expected to start this year or 2nd term which commences in January 2017.

Looking forward to your prompt response.

Thank you.

To:

[llarry711@hotmail.com](mailto:llarry711@hotmail.com) Alright.

A week ago, I was asked to pitch to the students among other pitchers on why they should join your club and I pitched on behalf of Astronomy Club which we just introduced owing to the conference we held in FUTA. surprisingly, 35 students signed up for our club and we had our first meeting yesterday, more like an Introductory meeting.

[our meeting holds every Friday \(see attached poster\) and am looking at more engaging activities to carry out during our meeting times.](#)

I searched through the materials you gave us and found an interesting file "stem outline" (see attached also)... can I get any help, guide or assistance as to effectively following this outline? maybe resources or anything...

Thanks  
Louis
